Why making it with Patons makes it really worthwhile . . .

Every year Patons makes up thousands and thousands of garments to ensure that each individual pattern is perfected in every size stated and **every Patons yarn specified**—of vital importance to the shape of your finished garment.

And once in shape—always in shape. No shrinking. No stretching. Patons promise it. With over 180 years of experience to draw on, the people at Patons don't pay lip service to quality, they work at it constantly. That's why making it with Patons makes it really worthwhile.

PATONS PRESENT THE GREAT CLASSICS

Just as there's a place in every wardrobe for the exciting avant-garde things, so there's a place for classics, too—for Mother and Daughter, Father and Son. A classic is what endures—a style that goes on and on. And when you knit classics in Patons Yarns, you know the garments will last, like the style—Patons unique "Patonising" process sees to that. Patons now present these family favourites in their special series of books known as "Patons Classics" and each book will tell you how to knit one basic style, complete with variations, in different Patons Yarns.

Here in Book 105 of Patons Classics is the **Raglan Jumper for Men**, with instructions for knitting in 9 different Patons yarns.

Variations in specified yarn quantities for garments.

Knitters occasionally comment that the quantity of yarn recommended for a garment varies from the amount they actually use. One major reason for this is that no two people knit or crochet exactly the same way.

When we specify a quantity of yarn for a particular garment, we are stating a figure that is the end result of having each individual design made by as many as six different knitters. The average quantity determined by this check knitting is regarded as the most satisfactory figure for that particular garment, knitted at the **correct tension*** to the measurements specified and in the actual yarn recommended. Naturally, if you decide to change the body or sleeve length **you must allow for an adjustment of the quantity of yarn.**

***Correct tension** — see tension instructions illustrated in this book.

SOME IMPORTANT HINTS

IMPORTANT — DYE LOTS!

Always buy enough of the same dye lot at the one time for a complete garment, as a variation between dye lots can occur.

Retain ball bands until garments is completely knitted, and, in the event of an enquiry concerning the purchase, submit all ball bands.

**SUCCESSFUL RESULTS DEPEND ON
CORRECT TENSION!**

To knit garments you'll be proud of, always make a Tension Test. Correct tension brings out a further benefit of Patons exclusive Patonising process. You'll find your knitteds have maximum resistance to pilling as well as shrinkage. So you're sure of knitteds looking fresh and new through wash after wash.

Tension Test: Before you start knitting take the yarn and needles specified in the instructions, cast on 20 stitches, work 20 rows in plain smooth fabric. Lightly press work. Check your tension by placing an inch tape across the stitches. Count the exact number of stitches to 2 ins. (5 cm) and compare with the tension given in the instructions. If your tension is too loose, try a size finer needle. If it's too tight, try a size larger needle. If more than one size of needle is recommended in the knitting instructions, and you have altered your needles to correct the tension, corresponding alterations must be made to needles throughout the instructions.
